

"Pocket" Drug List – 2020

Dear Member,

The **Pocket Drug List** is a continuously reviewed list of drugs that best represents the current clinical judgment of our providers and other experts in the diagnosis and treatment of different diseases. The full drug list contains additional prescribing and clinical information that assists in promoting the highest quality affordable care to you, our patient. This sheet, with perforated punch-out cards, identifies which commonly prescribed drugs your physician should prescribe when ordering your prescription drugs through our program. Simply punch these cards out to carry with you to your physician, and present them to your physician when your prescription is being written.

To make use of this Pocket Drug List simpler, the preferred drugs are listed by clinical category. *Note that only a few clinical categories require use of a preferred drug* – most other categories not listed below do not generally differentiate preferred vs. non-preferred drugs and are usually offered to you at your lower brand copy with some exceptions. **Covered generic drugs are given preferred status and will be dispensed whenever possible regardless of the clinical category.** All strengths of a drug listed on the Pocket Drug List are considered preferred unless noted, although your specific pharmacy benefit plan may impose restrictions or choose not to cover some drugs listed.

The listing on the next panel provides the clinical category, therapeutic class, and the preferred drug(s) within each class. Note that two small pocket formulary cards have been included in the third panel for your convenience to punch out and carry in your wallet as necessary.

This Pocket Drug List is subject to change. Please visit www.mc-rx.com to print the most up-to-date document. Click on '**Resources**', and look under '**Drug and Formulary Lists**' to find the current pocket formulary document.

For additional punch-out cards, please contact your benefits office or the Call Center at **855-828-1484**.

CLINICAL CATEGORY	DRUG CLASS	PREFERRED DRUG
ADD/ADHD Agents	ADD/ADHD	Generics, Adhansia XR, Daytrana, Mydayis, Quillivant, Quillichew, Vyvanse
